

2023 Federal Policy Agenda

The KC Chamber supports stable funding for the Military Services at a level that provides appropriate force modernization, service end strengths, lethality, and readiness to protect the Nation. The Chamber advocates for initiatives that increases the quality of life for Service members and their families, especially including and supporting more opportunities for spousal employment and better connection to jobs for those who transition out of the military. The Chamber actively promotes investments in infrastructure and capacity at our region's installations and within the defense industrial base.

- Continuously advocate for Congress to ensure that Defense funding is passed on time to avoid continuous resolutions and at levels to secure our Military services overmatch capability.
 - Military End Strengths at 2.2 million including Guard and Reserve Component of 900 thousand.
 - Increase in funding for University Research Initiatives that are aligned with DOD modernization priorities.
 - Increase investment in Cyber and Force modernization.
 - Support funding for maintaining and modernizing our nation's nuclear weapons stockpile and protect the critical role of the Kansas City National Security Campus in that program.
 - Continuous budget support for increased quality and modernization of training and education venues; not mortgaged for capital equipment investments.
- Sustain Active, Guard and Reserve family readiness and transition programs.
 - Implement and ensure Military Spouse reciprocity for all state licensed careers, including healthcare, law, education, and other licenses.
 - Support transition initiatives for separating military service members, integrate them into regional and state workforce development initiatives, and find innovative ways to improve transition efficiency.
 - KC Chamber advocates for continued support and increased capacity for the US Chamber/DOD Hiring our Heroes Corporate Fellowship Program.
- Promote adequate funding and an efficient procurement process for planned military construction projects, including hospitals, housing, childhood development centers, training facilities, munitions systems and utility infrastructure through the annual Military Construction, Veterans Affairs, and related agencies appropriations.
- Advocate and support delivery of seamless medical care including mental health, applicable research to maintain currency and establishment of joint DOD/VA medical facilities in Missouri and Kansas to ensure accessible, timely and quality healthcare for our currently serving and their families and our Veterans.
- Support the continued modernization and possible expansion of the Lake City Army Ammunition Plant.
- Support expanding Title 10 to allow the Army War College, the Army Command and General Staff College, the Army University, the Air University, the Naval War College, other accredited Department of the Navy degree-granting institutions, and the Marine Corps University the authority to hire Administratively Determined credentialed professional academic positions across all sectors of the university, regardless of the duration of the school term.
- Support the implementation of the PACT Act.
- Improve programs and services for Veterans, including women and minority Veterans.

2023 Kansas Policy Agenda

The KC Chamber supports stable funding for the military services at a level that maintains end strength necessary to ensure our forces' readiness and lethality; efforts to increase the quality of life for Service members and their families, including more opportunities for spousal employment and better connection to jobs for those who transition out of the military; and investments in infrastructure and capacity at our region's installations and within the defense industrial base.

- Advocate with Congress and Department of Defense for a formal agreement between the US Army and US Air Force that would enable Fort Riley to conduct Total Force, combined arms training at Smoky Hill Military Reservation, which is owned by the US Air Force and operated by the Kansas National Guard.
- Support funding for maintaining and modernizing our nation's nuclear weapons stockpile and protect the critical role of the Kansas City National Security Campus in that program.
- Support policies and initiatives that strengthen the partnership between the education community, business community, and military community to better translate military service to the civilian world and improve/streamline veteran hiring and jobs matching opportunities, such as with the Joint Military Civilian Innovation pilot initiative by Fort Riley, Kansas.
- Support measures to enhance the National Security Crossroads initiative.
- Ensure that K-12 schools that serve high percentages of military-connected students adopt rigorous academic standards and provide a well-rounded educational experience.
- Support military recruiting efforts to increase awareness and understanding of the military as a viable career option to K12 students and their parents.
- Support adequate funding for planned military construction projects, including hospitals, housing, childhood development centers, training facilities, munitions systems and utility infrastructure through the annual Military Construction, Veterans Affairs, and Related Agencies appropriation.
- Promote and advocate for the alignment of research and development efforts at Kansas universities with DOD's modernization priorities.
- Support better state and regional efforts to identify and retain transitioning Service members by connecting them with jobs in the region and ensure access to educational and training benefits.
- Advocate and support delivery of seamless medical care including mental health, applicable research to maintain currency and establishment of joint DOD/VA medical facilities in Missouri and Kansas to ensure accessible, timely and quality healthcare for our currently serving and their families and our Veterans.
- Improve programs and services for Veterans, including women and minority Veterans.

2023 Missouri Policy Agenda

The KC Chamber supports stable funding for the military services at a level that maintains end Strength necessary to ensure our forces' readiness and lethality; efforts to increase the quality of life for Service members and their families, including more opportunities for spousal employment and better connection to jobs for those who transition out of the military; and investments in infrastructure and capacity at our region's installations and within the defense industrial base.

- Support the continued modernization and possible expansion of the Lake City Army Ammunition Plant.
- Support funding for maintaining and modernizing our nation's nuclear weapons stockpile and protect the critical role of the Kansas City National Security Campus in that program.
- Support transparency of how military training credits articulate across the state's higher education institutions.
- Support policies and initiatives that strengthen the partnership between the education community, business community, and military community in order to better translate military service to the civilian world and improve/streamline veteran hiring and jobs matching opportunities, such as with the Joint Military Civilian Innovation pilot initiative by Fort Riley, Kansas.
- Support measures to enhance the National Security Crossroads initiative.
- Ensure that K-12 schools that serve high percentages of military-connected students adopt rigorous academic standards and provide a well-rounded educational experience.
- Support military recruiting efforts to increase awareness and understanding of the military as a viable career option to K12 students and their parents.
- Better align research and development efforts at Missouri's universities with DOD's modernization priorities.
- Support adequate funding for planned military construction projects, including hospitals, housing, childhood development centers, training facilities, munition systems and utility infrastructure through the annual Military Construction, Veterans Affairs, and Related Agencies appropriation.
- Support better state and regional efforts to identify and retain transitioning Service members by connecting them with jobs in the region and ensure access to educational and training benefits.
- Advocate and support delivery of seamless medical care including mental health, applicable research to maintain currency and establishment of joint DOD/VA medical facilities in Missouri and Kansas to ensure accessible, timely and quality healthcare for our currently serving and their families and our Veterans.
- Improve programs and services for Veterans, including women and minority Veterans.
